MEZZANINE FLOORS

We are Leading Modular Mezzanine Floor Manufacturers, Exporters, Suppliers in India.

We are the Prominent Manufacturer of Mezzanine Floor, We provide outstanding level of satisfaction to our clients by working in tandem with our highly specialized and skilled team of professionals. A perfect amalgam of professionals and highly active R&D wing facilitates us to establish ourselves in this competitive scenario. With the assistance of strategic tie-ups with various reputed C&F agents, we never fail to meet the testing demands of our clients with enthusiasm and within stipulated time. A flawless and innovative range of products with customization is made available together with a competitive pricing policy.

It's ideal for places where large amount of space generation is required. In industries, warehouses or shops where there is humongous requirement of space for storage and carrying out various processes, they provide the best solution for effective utilization of space. No additional cumbersome construction of bricks is required which drains you of your time and energy.

These Mezzanine floors are made with nuts and bolts hence no cement work, They are very stable and have strong structural integrity. The design and size can be manipulated according to the client's site where it is to be installed.

We have achieved paramount success in manufacturing, trading, wholesaling and supplying of Mezzanine Floor. These trolleys come with a very good capacity and are very easy to handle as well.

MULTI TIER MEZZANINE FLOORS

Modular Mezzanine Floor is a steel platform that is raised from the normal floor level but isn't as high as the ceiling. It is an intermediate floor between the two main consecutive floors of a building and is low-ceilinged. They are a stupendous way of creating extra space in areas where there is a paucity of space and the requirement exceeds the availability. The material rule is the deciding factor for the cost. Floors constructed using structural steel are very heavy but are cheap in pricing. It has the maximum column spacing. They are pleasant in appearance and are best suited for public buildings. Though, they are light but still can bear colossal amount of weight.

FOR SPACE

DOUBLE DECKER MEZZANINE FLOOR

M. S. MEZZANINE FLOOR

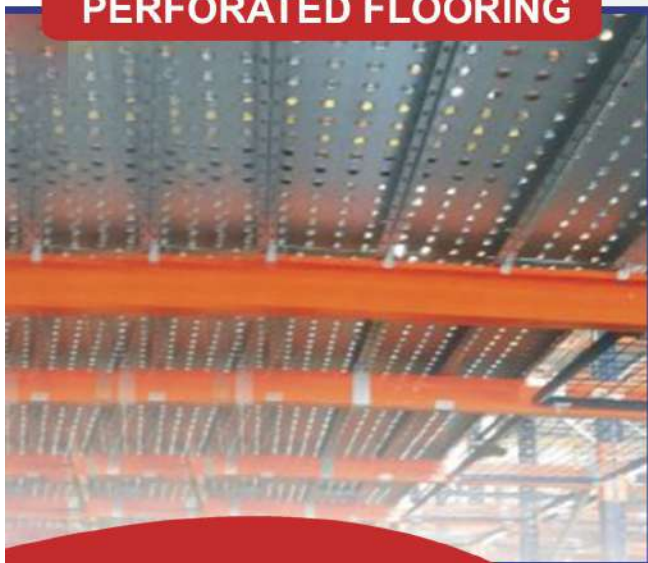

RAMP

STAIR

LIFT

The combination of free standing and shelving mezzanines in a total concept creates space, which can guarantee an optimal interaction of goods in and goods out in the storage area. The linking of cranes to storage and/or shelf mezzanines improves the flow goods customer service based on storage concepts.

BELT / ROLLAR CONVEYOR SYSTEM

We are Leading Belt Conveyor System Manufacturers, Exporters, Suppliers in India.

Belt Conveyor System is also called Rubber conveyor belt, which is widely used for transporting bulk materials or packed products in mining industry, building materials industry, metallurgy industry, coal and other industries. According to the process requirements, it can achieve single delivery, multiple combinations and the horizontal or inclined conveying system together with other equipment, so as to meet the different operation requirements.

The Belt Conveyors is driven by the motorized pulley and the lifting and running of the whole set is nonmotorized. It is suitable for loading and unloading and to deliver bulk materials or integrated items in short distance. The steel tube structure is light, pleasing and with good mobility.

The transmission device is a motorized pulley equipped with pneumatic tire and steel wheels, and the dip angle can be adjusted if the conveyor length is more than 10m.

Conveyor belt can provide the most reasonable and economic configurations for customers according to their requirements.

INDUSTRIAL SHED

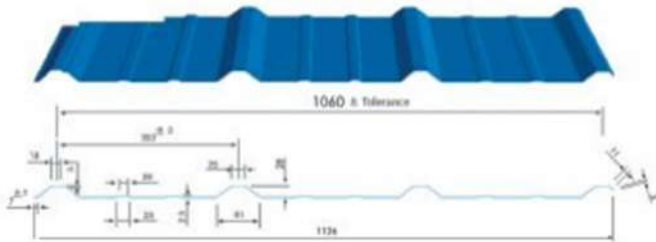

Spangle Roofing Solutions include Spangle AC Roofing and Spangle Hi-Tech, Spangle Roof light and Metal Roofing Spangle Roofing, which is fibre cement corrugated roofing sheets, is being used extensively throughout the country for factories, power plants, stadiums, schools, urban and rural houses, to name a few. Spangle Hi-Tech is a high impact resistance non-asbestos corrugated modern roofing system. Spangle Roof light -another high quality polycarbonate roofing sheet and Spangle Metal roofing.

INDUSTRIAL SHED

Spangle 1060 mm

We offer a wide variety of industrial sheds that can be fabricated as per the client's requirement. Our range of industrial sheds is used across various industries in warehouses, manufacturer units and other industrial places and is offered at economical prices.

Its light weightness and panel structural strength is an added advantage for sheds and gets comfortable working atmosphere by reducing the heat inside.
